General (normal) setting is not balanced.. Fans of this game been living all their life living in a cucks paradise. What trash. For THREE GAMES Squenix tried to force this Mary Sue on us and we still hate her. These lightning games did irreparable damage to the FF franchise.. HOLY CRAP THE MUSIC RULES

Also: Vector graphics +++ Woot. This is one of the easier AGEOD games to get into, there's still so much nuance however. It's best to start in the Italian Scenario and be able to consistently win on both sides before expanding your view outward to the grander campaigns.

This game is really worth picking up if you wish to learn of the history and military strategy of the day, though it is brought down by the ancient engine it is used on. Fortunately, Slitherine has confirmed this is the last AGEOD game on this engine, as a new one is in the works, which is what we should all be looking out for. Either way, this is a great game to add to your selection.. Love it, would love a multiplayer league though ;D. It's a decent twin stick shooter but suffers from becoming a little tedious very quickly.

Too much backtracking and the upgrade system is very basic but works ok.

I'll give it a thumbs up, try it if you are looking for something to pass time with. There are definitely better ones out there.

I would recommend this , strong puzzles and very addicting. Lmao at the democrats downvoting this game.. I love this game. But I hate how this girl keeps on spending my money and getting fat every time i give her free time, but other then that it's a great game. it's a really good improvement on princess maker 2 to have the father have different professions. These professions are really important to your starting stats, your daughters beginning disposition and the jobs she can do, and her birthdate/astronomy stats. I had a scorpio daughter whose father was a retired knight and her starting stats were nowhere as good as the scorpio daughter with the father being a performer. plus her delinquency disposition made her do better in the mines so i got a good deal of money in know time. It seems when the fathers have lowly professions the daughter has high stamina and low intelligence and such. But of course with retired knight and the better professions they have higher refinement and charisma. being i like the different stratagies you have to use. I just wish there was adventuring like in PM2. It was a good way to get extra money, unlock other endings, and get items you wouldn't find elsewhere. One other complaint are the festivals. I love having festivals because it's a way to win extra money. But who ever wins the festival can be random. I have to save before a festival and reload and reload till i make sure she wins. Because even if her stats are high if her randomized competitors are someone like Patricia, or Anita, then she's not going to win against them. I also wish there were more endings. But still this is a great game i love it.. Didn't enjoy it, it's aged badly.

- > First six hours had barely any lore (which is what the game is meant to be loved for).
- > The guns are like Half-Life [1998] except HL was made years before Bioshock 1 [2007].
- > It gives you a camera in a gun slot, rather than an alternative keybind.
- > It expects you to "know things", ie, handing you alternative bullets then doesnt tell you what they are for, until hours have gone by and you would have really liked that knowledge prior when it was needed, etc.

Game has just "aged". I understand the newer games might have awesome lore, but for me, if I can't see the origins of a game I wont stick with the franchise just because it "might get good" at some point.

As its personal preference, I'm not willing to take the risk. I played this because i like noir as a genre. I studied it in high school, and favour myself as a form of femme fatale, especially in video games. Some of the storyline leaps in this, I thought were great. The setting, showing deviant culture as a form of semi-normality, etc. Science being morally questioned, in terms of "where we will take it", alongside potentialities of boosting the parasympathetic nervous system (ie having powers, the "I yawn, you yawn", system of the body that does things "beyond"Vpara) and etc. But how the actual gameplay was pulled off ALONGSIDE the severe lack of lore I didn't like.

> Example; the respawn mechanic taking away your acquired things that you have used would be fine. Ie, you resurrect in your last saved spot but minus anything you have used since. So if you die on a boss fight and used 5 health restores which you started with, when you resurrect you come back with none of those and have to fight the boss again with 0 health restores. Making the entire game... severely punishing. Which may be fine, except mobs respawn also). So you also have all those mobs in the few rooms to get back to the boss also. You might have used 7 health packs and 2 energy packs the first time, and now you are expected to use 0 and do the same thing again. That kind of thing...

> The gunplay itself, is also not great. Very basic, the only alteration is different forms of bullets that they throw at you before explaining hours later, in that each mob has weaknesses and resistences to certain bullets. Which should have been a popup as soon as you picked up each new type, etc. Its impossible to take down a Rosie with normal bullets, you HAVE to know the mech's weaknesses to make it manageable, or you get bullet-dry. They tell you after a few hours (after facing 2-4 Rosie's on your own without that knowledge and having the worst time of your life) then get the knowledge and can steam-roll them kind of. It's just frustrating.

I just found the game clunky. I get its a cult game. I get it. I gave it six hours because of that fandom. But I've played quite a few of the games from that time and prior now. Games that I have enjoyed and feel aged well into their newer versions. I do not feel Bioshock as a franchise "sold me" on their first game.. Quick, easy and good quality. Lots of training videos on youtube. This software delivers.. finished in less the 20 mins spend 6 mins on the ♥♥♥♥♥♥♥♥ due to how bad it was! Refunded. Good game, though there is much work to do.

Highly recommended for MMO-fans, even if you are not sure, if this is for you or not.  
Try it out, you won't regret it.
